OUR PORTFOLIO

Eight APIs. Five therapeutic areas.

Chemical identity, therapeutic use and indicative export pack sizes.

Metformin Hydrochloride

CAS 1115-70-4 I 25 kg net drum

Diabetology I Antidiabetic

Used in oral medicines for the management of type 2 diabetes.

$C_4H_{12}ClN_5$ I 165.62

Paracetamol / Acetaminophen

CAS 103-90-2 I 25 kg net drum

Pain & fever I Analgesic / antipyretic

Used in medicines for pain relief and fever reduction.

$C_8H_9NO_2$ I 151.16g/mol

Amlodipine Besylate

CAS 111470-99-6 I 5 kg / 25 kg net drum

Cardiology I Calcium channel blocker

Used in medicines for managing hypertension and angina.

$C_{26}H_{31}ClN_2O_8S$ I 567.05 g/mol

Telmisartan

CAS 144701-48-4 I 25 kg net drum

Cardiology I Angiotensin II receptor blocker

Used in antihypertensive medicines to help lower blood pressure.

$C_{33}H_{30}N_4O_2$ I 514.62 g/mol

Losartan Potassium*

CAS 124750-99-8 I 25 kg net drum

Cardiology I Angiotensin II receptor blocker

The potassium salt of losartan, used in medicines for hypertension.

$C_{22}H_{22}ClKN_6O$ I 461.00 g/mol

Pantoprazole Sodium Sesquihydrate*

CAS 164579-32-2 I 5 kg / 25 kg net drum

Gastroenterology I Proton pump inhibitor

Used in acid-suppressing medicines for acid-related gastrointestinal conditions.

$C_{16}H_{14}F_2N_3NaO_4S \cdot 1.5H_2O$ I 432.37 g/mol

Omeprazole

CAS 73590-58-6 I 5 kg / 25 kg net drum

Gastroenterology I Proton pump inhibitor

Used in medicines that reduce gastric acid production.

$C_{17}H_{19}N_3O_3S$ I 345.42 g/mol

Azithromycin Dihydrate*

CAS 117772-70-0 I 25 kg net drum

Infectious diseases I Macrolide antibacterial

Used in medicines for specified infections caused by susceptible bacteria.

$C_{38}H_{72}N_2O_{12} \cdot 2H_2O$ I 785.02 g/mol

*Chemical forms require confirmation against the selected manufacturer specification and CoA. CAS numbers refer to the exact forms shown. All pack sizes are indicative and subject to manufacturer confirmation.

Chemical identity references: click each formula. Masses include the named salt / hydrate. Verified September 2026.

QUALITY & EXPORT SUPPORT

Specifications that fit your enquiry.

Grade, packaging and documentation are confirmed for each manufacturing source.

Pharmacopoeial specifications

USP / BP / Ph. Eur. (EP) / IP

Enquiries may specify these standards or an agreed in-house specification. The offered grade must be supported by the manufacturer's specification and CoA; availability of every grade is not implied.

Packaging for export

Proposed options include sealed pharmaceutical-grade polyethylene liners within fibre or HDPE drums, with additional moisture or light protection where supported by the approved packaging system.

Final pack size, storage and transport conditions are product-specific. Labelling identifies the product, manufacturer, batch, net weight and applicable retest or expiry information.

Documentation for buyer evaluation

Product & batch	CoA, product specification, SDS and analytical information.
Manufacturer & stability	Manufacturing licence, applicable GMP evidence, site details and stability support.
Impurities & declarations	Related substances, residual solvents and applicable elemental impurity, nitrosamine or TSE/BSE information.
Regulatory support	DMF / ASMF or CEP, where available, with relevant access or authorisation arrangements.

Documents are subject to manufacturer availability, authorisation to share and destination requirements. Certifications apply to the relevant manufacturing site and API.

ABOUT SRA GLOBAL VENTURES

Your API sourcing conversation starts here.

Based in India. Focused on API trade.

SRA Global Ventures is based in Nagpur, Maharashtra, with a focus on pharmaceutical API sourcing and merchant exports. Our business connects overseas pharmaceutical manufacturers, importers and distributors with Indian API supply opportunities.

Our approach centres on understanding buyer specifications, coordinating manufacturer documentation and developing product-specific commercial offers for evaluation and procurement.

Send us your requirements

API and exact form / Grade or specification / Trial and annual quantity

Preferred pack / Destination and port / Required documentation

Delivery schedule and trade terms

MOQ, price, lead time, samples and payment terms are confirmed with each quotation. Shipment documents are agreed for the transaction and destination, including invoice, packing list, origin and transport documents, plus applicable customs, insurance and permit documentation.
