COMPANY & PORTFOLIO

Indian sourcing. Product focus.

About SRA Global Ventures

SRA Global Ventures is based in Nagpur, Maharashtra, with a focus on pharmaceutical API sourcing and merchant exports. Our business connects overseas pharmaceutical manufacturers, importers and distributors with Indian API supply opportunities.

Our approach centres on buyer specifications, manufacturer documentation and product-specific commercial offers for supplier evaluation and procurement.

Product directory

Metformin Hydrochloride	PAGE 03
Paracetamol / Acetaminophen	PAGE 04
Amlodipine Besylate	PAGE 05
Telmisartan	PAGE 06
Losartan Potassium*	PAGE 07
Pantoprazole Sodium Sesquihydrate*	PAGE 08
Omeprazole	PAGE 09
Azithromycin Dihydrate*	PAGE 10

11 Quality, grades & documentation

12 Export enquiries & contact details

*Exact supplied chemical forms require manufacturer confirmation. The portfolio is an enquiry catalogue; availability is confirmed with each quotation.

PRODUCT PROFILE / 01

Metformin Hydrochloride

CAS NUMBER	1115-70-4
MOLECULAR FORMULA	$C_4H_{12}ClN_5$
MOLECULAR WEIGHT	165.62 g/mol (named form)
CHEMICAL FORM	Hydrochloride (1:1)
NAME / SYNONYMS	Metformin HCl; 1,1-dimethylbiguanide hydrochloride

Diabetology I Antidiabetic

2D chemical structure I PubChem

Product description

Used in oral medicines for the management of type 2 diabetes. Therapeutic descriptions refer to finished medicines. Formulation suitability requires product-specific evaluation.

Grade & technical specification

Requested standard: USP, BP, Ph. Eur. (EP), IP or an agreed in-house specification, as applicable. The offered grade, assay, impurity limits and physical characteristics must be confirmed against the selected manufacturer's specification and CoA.

Indicative export packaging

25 kg net drum. Packaging, storage and retest conditions require manufacturer confirmation. Documentation details: page 11.

Product-specific documents, sample availability, MOQ and lead time are confirmed with the quotation.

PRODUCT PROFILE / 02

Paracetamol / Acetaminophen

CAS NUMBER	103-90-2
MOLECULAR FORMULA	$C_8H_9NO_2$
MOLECULAR WEIGHT	151.16 g/mol (named form)
CHEMICAL FORM	Parent compound
NAME / SYNONYMS	Acetaminophen; N-(4-hydroxyphenyl)acetamide

Pain & fever I Analgesic / antipyretic

2D chemical structure I PubChem

Product description

Used in medicines for pain relief and fever reduction. Therapeutic descriptions refer to finished medicines. Formulation suitability requires product-specific evaluation.

Grade & technical specification

Requested standard: USP, BP, Ph. Eur. (EP), IP or an agreed in-house specification, as applicable. The offered grade, assay, impurity limits and physical characteristics must be confirmed against the selected manufacturer's specification and CoA.

Indicative export packaging

25 kg net drum. Packaging, storage and retest conditions require manufacturer confirmation. Documentation details: page 11.

Product-specific documents, sample availability, MOQ and lead time are confirmed with the quotation.

PRODUCT PROFILE / 03

Amlodipine Besylate

CAS NUMBER	111470-99-6
MOLECULAR FORMULA	$C_{26}H_{31}ClN_2O_8S$
MOLECULAR WEIGHT	567.05 g/mol (named form)
CHEMICAL FORM	Besylate salt (1:1)
NAME / SYNONYMS	Amlodipine besilate; amlodipine benzenesulfonate

Cardiology I Calcium channel blocker

2D chemical structure I PubChem

Product description

Used in medicines for managing hypertension and angina. Therapeutic descriptions refer to finished medicines. Formulation suitability requires product-specific evaluation.

Grade & technical specification

Requested standard: USP, BP, Ph. Eur. (EP), IP or an agreed in-house specification, as applicable. The offered grade, assay, impurity limits and physical characteristics must be confirmed against the selected manufacturer's specification and CoA.

Indicative export packaging

5 kg / 25 kg net drum. Packaging, storage and retest conditions require manufacturer confirmation. Documentation details: page 11.

Product-specific documents, sample availability, MOQ and lead time are confirmed with the quotation.

PRODUCT PROFILE / 04

Telmisartan

CAS NUMBER	144701-48-4
MOLECULAR FORMULA	$C_{33}H_{30}N_4O_2$
MOLECULAR WEIGHT	514.62 g/mol (named form)
CHEMICAL FORM	Parent compound (free acid)
NAME / SYNONYMS	Telmisartan; BIBR 277

Cardiology I Angiotensin II receptor blocker

2D chemical structure I PubChem

Product description

Used in antihypertensive medicines to help lower blood pressure. Therapeutic descriptions refer to finished medicines. Formulation suitability requires product-specific evaluation.

Grade & technical specification

Requested standard: USP, BP, Ph. Eur. (EP), IP or an agreed in-house specification, as applicable. The offered grade, assay, impurity limits and physical characteristics must be confirmed against the selected manufacturer's specification and CoA.

Indicative export packaging

25 kg net drum. Packaging, storage and retest conditions require manufacturer confirmation. Documentation details: page 11.

Product-specific documents, sample availability, MOQ and lead time are confirmed with the quotation.

PRODUCT PROFILE / 05

Losartan Potassium*

CAS NUMBER	124750-99-8
MOLECULAR FORMULA	$C_{22}H_{22}ClKN_6O$
MOLECULAR WEIGHT	461.00 g/mol (named form)
CHEMICAL FORM	Monopotassium salt
NAME / SYNONYMS	Losartan potassium; MK 954; DuP 753

Cardiology I Angiotensin II receptor blocker

2D chemical structure I PubChem

Product description

The potassium salt of losartan, used in medicines for hypertension. Therapeutic descriptions refer to finished medicines. Formulation suitability requires product-specific evaluation.

Grade & technical specification

Requested standard: USP, BP, Ph. Eur. (EP), IP or an agreed in-house specification, as applicable. The offered grade, assay, impurity limits and physical characteristics must be confirmed against the selected manufacturer's specification and CoA.

Indicative export packaging

25 kg net drum. Packaging, storage and retest conditions require manufacturer confirmation. Documentation details: page 11.

*The CAS number applies to the named salt / hydrate. Confirm the exact supplied form before ordering.

PRODUCT PROFILE / 06

Pantoprazole Sodium Sesquihydrate*

CAS NUMBER	164579-32-2
MOLECULAR FORMULA	$C_{16}H_{14}F_2N_3NaO_4S \cdot 1.5H_2O$
MOLECULAR WEIGHT	432.37 g/mol (named form)
CHEMICAL FORM	Sodium salt; sesquihydrate
NAME / SYNONYMS	Pantoprazole sodium sesquihydrate

Gastroenterology I Proton pump inhibitor

Sodium salt shown; plus 1.5 H_2O
2D chemical structure I PubChem

Product description

Used in acid-suppressing medicines for acid-related gastrointestinal conditions. Therapeutic descriptions refer to finished medicines. Formulation suitability requires product-specific evaluation.

Grade & technical specification

Requested standard: USP, BP, Ph. Eur. (EP), IP or an agreed in-house specification, as applicable. The offered grade, assay, impurity limits and physical characteristics must be confirmed against the selected manufacturer's specification and CoA.

Indicative export packaging

5 kg / 25 kg net drum. Packaging, storage and retest conditions require manufacturer confirmation. Documentation details: page 11.

*The CAS number applies to the named salt / hydrate. Confirm the exact supplied form before ordering.

PRODUCT PROFILE / 07

Omeprazole

CAS NUMBER	73590-58-6
MOLECULAR FORMULA	$C_{17}H_{19}N_3O_3S$
MOLECULAR WEIGHT	345.42 g/mol (named form)
CHEMICAL FORM	Parent compound (anhydrous basis)
NAME / SYNONYMS	Omeprazole

Gastroenterology I Proton pump inhibitor

2D chemical structure I PubChem

Product description

Used in medicines that reduce gastric acid production. Therapeutic descriptions refer to finished medicines. Formulation suitability requires product-specific evaluation.

Grade & technical specification

Requested standard: USP, BP, Ph. Eur. (EP), IP or an agreed in-house specification, as applicable. The offered grade, assay, impurity limits and physical characteristics must be confirmed against the selected manufacturer's specification and CoA.

Indicative export packaging

5 kg / 25 kg net drum. Packaging, storage and retest conditions require manufacturer confirmation. Documentation details: page 11.

PRODUCT PROFILE / 08

Azithromycin Dihydrate*

CAS NUMBER	117772-70-0
MOLECULAR FORMULA	$C_{38}H_{72}N_2O_{12} \cdot 2H_2O$
MOLECULAR WEIGHT	785.02 g/mol (named form)
CHEMICAL FORM	Dihydrate (two waters)
NAME / SYNONYMS	Azithromycin dihydrate; CP-62993 dihydrate

Infectious diseases | Macrolide antibacterial

2D chemical structure | PubChem

Product description

Used in medicines for specified infections caused by susceptible bacteria. Therapeutic descriptions refer to finished medicines. Formulation suitability requires product-specific evaluation.

Grade & technical specification

Requested standard: USP, BP, Ph. Eur. (EP), IP or an agreed in-house specification, as applicable. The offered grade, assay, impurity limits and physical characteristics must be confirmed against the selected manufacturer's specification and CoA.

Indicative export packaging

25 kg net drum. Packaging, storage and retest conditions require manufacturer confirmation. Documentation details: page 11.

TECHNICAL & QUALITY SUPPORT

Grades, packaging & documents

Pharmacopoeial standards

USP: United States Pharmacopeia. BP: British Pharmacopoeia.
Ph. Eur. / EP: European Pharmacopoeia. IP: Indian Pharmacopoeia.
In-house specifications may be considered where acceptable to the buyer and destination.
Availability of all grades is not implied.

Packaging & storage

Proposed options include pharmaceutical-grade polyethylene liners within fibre or HDPE drums, with additional moisture or light barriers where supported by the manufacturer's approved packaging system. Final storage and retest conditions must follow product-specific documentation.

Documentation for evaluation

Batch & product	CoA, approved specification, SDS and analytical support.
Manufacturer	Manufacturing licence, applicable GMP evidence and site details.
Stability	Storage conditions and retest period or shelf-life support.
Impurity control	Related substances, residual solvents and applicable elemental impurity or nitrosamine assessments.
Regulatory	DMF / ASMF or CEP, where available, with relevant access or authorisation arrangements.
Declarations	TSE/BSE and other buyer-requested declarations, where applicable.

Documents depend on the selected source, authorisation to share and destination requirements. Certifications relate to the relevant manufacturing site and API; this catalogue does not certify a supplier or batch.
